

FLEETSTAR[®]

DOUBLE-WALL ALUMINUM DOOR

MAXIMUM DURABILITY, MINIMUM MAINTENANCE.

On a per-mile basis, you can't make a better investment than FleetStar®. It is the only extruded aluminum overhead door comprised of solid-piece double-wall panels specifically designed to shed the elements outside, and provide maximum cargo protection inside. And with 28% thicker mill-finish aluminum construction, you get unmatched durability along with a smooth-faced, virtually worry-free door that can actually outlast your vehicle.

Single counterbalance spring for effortless operation.

Adjustable top fixtures plus rubber head seal provide tight seal at top of door.

Panel-joint compression seals keep grime and moisture outside.

Gasketed exterior hardware.

Tapered tongue & groove panel joints are uniquely designed to force water flow downward, while keeping door panels properly aligned and rigid.

Horizontal reinforcement webs combine with 28% thicker aluminum to strengthen panel in key stress areas.

Only FleetStar has panels recessed at hinge areas to help prevent cargo damage and hang-ups.

No thru rivets for a smooth, automotive quality paint or decal-ready exterior.

Galvanized steel track and mounting angle.

Strong 5-knuckle end hinges. Removable cap speeds roller changes without removing hinge.

Rubber side seals.

All hardware e-coated for maximum rust and corrosion protection.

Double-wall panels are a single aluminum extrusion, with no welded joints to crack or corrode. Panels available in 10, 11 and 12 inch widths.

Replaceable four-lip bottom seal for increased weather protection.

Aircraft quality 7 x 19 stainless steel cables.

Heavy-duty Maximum Security lock never needs adjusting. No springs to rust, wear, bind or break.

OPTIONAL EQUIPMENT

• **Brush side and head seals**

• **White powder-coated exterior finish**

• **1" sealed or precision rollers**
